

TECHNICAL DATA SHEET - DISTANSLINJAL ZIG-ZAG

DESCRIPTION

Distanslinjal zig-zag is a linear rebar spacer made of PVC and is used on formworks as a spacer for the bottom layer reinforcement in reinforced concrete structures.

USAGE

Place on hard surfaces such as plywood formwork. Should be placed with the "feet"/"pins" downward towards the surface to minimize the contact area.

TECHNICAL INFORMATION

Color: Grey

Material: Plastic/PVC

Concrete cover: 15-65 mm (Stock items listed in the table below)

Length: 2.0 m

Material consumption: 1-1.5 m/m²

c/c: 0.8 m
