

## TECHNICAL DATA SHEET - DISTANSHJUL UNI

### DESCRIPTION

The UNI spacer wheel is a reinforcement spacer made of recycled PVC-free plastic. Equipped with a centrally positioned snap lock for reinforcement, it is ideal for use in spacing reinforcement in wall or column formwork.

The UNI spacer wheel, type L (Large), is used for heavier reinforcement.

### TECHNICAL INFORMATION

**Color:** Grey

**Material:** A blend of PVC-free PP and HDPE (Polyolefin blend)

**Concrete cover:** 15-95 mm (stock assortment in table below)
