

TECHNICAL DATA SHEET - HEAXGON NUT

DESCRIPTION

Hexagon nut designed for use with form tie systems in concrete construction. Ensures reliable locking of formwork during casting of walls, columns, and other vertical structures. Suitable for both medium- and heavy-duty applications.

APPLICATIONS

- Secure locking of threaded form ties in wall and column formwork
- For use in temporary concrete structures
- Compatible with tie rods DW15, DW20, and DW26

KEY FEATURES

- High load-bearing capacity in both tension and compression
- Fully compatible with standard form tie systems
- Weldable material
- 3.1 material certificate (DIN EN 10204)

PRODUCT RANGE

Item.nr	Name	Rod Ø(mm)	Hex (mm)	Lenght (mm)	Unit
1092020	Hexagon Nut 15x50	15	30	50	pcs
1092021	Hexagon Nut 15x70	15	30	70	pcs
1092022	Hexagon Nut 20x60	20	36	60	pcs
1092023	Hexagon Nut 20x70	20	36	70	pcs
1092024	Hexagon Nut 26x80	26	46	80	pcs
